

# ECC NON-PROFIT

## Case Management App

### Project Discovery Questionnaire

Organization: ECC (Emmaus Community of Chicago)  
Platform: React Native (iOS)  
Document Version: 1.0 | Date: \_\_\_\_\_

**NOTE:** This document helps your development team understand the full scope of the ECC case management app before a single line of code is written. Answer every question as completely as possible. Leave a blank line if you are unsure and discuss it with your team.

#### How to Use This Document

1. Print or open digitally and work through each section with your leadership team.
2. Write your answers in the blank lines or circle / check the boxes provided.
3. Return the completed document to your developer before the kickoff meeting.
4. Sections marked [REQUIRED] must be answered before development begins.

#### SECTION 1 ORGANIZATION OVERVIEW

*Tell us about ECC so the app reflects your mission and brand.*

**Q1. What does ECC stand for and what is its full legal name?** [REQUIRED]

Eritrean community Connections

**Q2. What is ECC's primary mission in one or two sentences?** [REQUIRED]

Help Eritrean immigrants find help while new to america

**Q3. How many active staff members will use this app at launch?** (approximate)

Around 30

**Q4. How many active client cases does ECC manage at any given time?** *(approximate)*

hundreds

**Q6. Does ECC have existing branding (logo, colors, fonts) you want reflected in the app?** *List colors/hex codes if known*

No

## SECTION 2 USER ROLES & ACCESS CONTROL

*The app will have three access tiers. Describe what each role can and cannot do.*

**Q7. MANAGER ROLE: What actions can a Manager perform that others cannot?**  
*[REQUIRED] e.g. delete cases, manage users, view all cases, run reports*

Add cases, add employees into the system as well as give and edit their role, delete cases  
see all cases edit cases

**Q8. SUPERVISOR ROLE: What actions can a Supervisor perform?** *[REQUIRED] e.g. view their team's cases, approve notes, reassign cases*

Give specific roles to the case manager appropriate, view cases

**Q9. CASE MANAGER ROLE: What actions can a Case Manager perform?** *[REQUIRED] e.g. create/edit their own cases, upload documents, add notes*

Only able to access the cases given to them add case manager notes

**Q10. Can a Case Manager see other Case Managers' cases?** *Circle: Yes / No / Only within same team*

no

**Q11. Can a Supervisor see all cases or only cases assigned to their team?**

Only the cases they assign

**Q12. Who can CREATE new user accounts in the app?** *Circle: Manager only / Manager + Supervisor / Any role*

Manager only

**Q13. Who can DEACTIVATE or DELETE a user account?**

Manager only

**Q14. Should there be an audit log showing who changed what and when?** *Circle: Yes / No / Manager-only view*

Yes only manager can see and supervisor has access to their own only logs to look back

### SECTION 3 AUTHENTICATION & SECURITY

*This section covers login, 2FA setup, and data security requirements.*

**Q15. Which 2FA method(s) do you want to support?**

- ☒ SMS text code
- ☐ Email verification code
- ☐ Authenticator app (Google/Microsoft)
- ☐ Biometric (Face ID / Touch ID)
- ☐ All of the above
- ☐ Let the developer recommend

**Q16. Should 2FA be required for ALL roles or only certain roles?** *e.g. required for Manager and Supervisor, optional for Case Manager*

yes

**Q17. How long should a login session stay active before requiring re-login?** *e.g. 8 hours, 24 hours, 7 days*

8 hours

**Q18. What happens if a staff member leaves ECC? Who is responsible for deactivating their account?**

manager

**Q19. Do any regulatory or grant requirements apply to how client data is stored?** *e.g. HIPAA, state social services regulations, funder mandates*

Im not sure but it should be well protected

**Q20. Should client data be stored on a US-based server?** *Circle: Yes, required / Preferred but not required / No preference*

Yes preferably but make it secure

**Q21. Is there a requirement for automatic data backups? How often?**

no

## SECTION 4 CASE STRUCTURE & FIELDS

*Based on the folder structure you shared (Intake, Consent Forms, Service Records, Case Notes, Communication, Supporting Documents), help us define what goes inside each section.*

### 4A Intake

**Q22. What client information is collected at intake?** *[REQUIRED] e.g. name, DOB, address, phone, gender, language, referral source, household size*

For now leave all sections as tet boxes except for supporting documents

**Q23. Is there a standard intake form ECC currently uses (paper or digital) that the app should mirror?** *If yes, please attach a copy.*

#### 4B Consent Forms

**Q24. What types of consent forms does ECC use?** *e.g. consent to services, photo release, data sharing, HIPAA notice*

**Q25. Do consent forms need to be signed digitally inside the app?** *Circle: Yes / No / Upload scanned signature only*

**Q26. Should the app track when consent forms expire and send alerts?** *Circle: Yes / No / Nice to have*

#### 4C Service Records

**Q27. What types of services does ECC provide? List each service category.**  
*[REQUIRED]*

**Q28. What data is recorded each time a service is delivered?** *e.g. date, service type, duration, units, provider name, location, outcome*

**Q29. Are there service goals or milestones that need to be tracked per client?**

#### 4D Case Notes

**Q30. What format do case notes follow?** *e.g. SOAP (Subjective/Objective/Assessment/Plan), DAP, free text, template*

**Q31. Can Case Managers edit a note after saving? Is there a time limit?**

**Q32. Should notes be locked from editing after a Supervisor approves them?** *Circle: Yes / No / Not applicable*

**Q33. Do notes require Supervisor review and sign-off before they are finalized?**

#### 4E Communication Log

**Q34. What types of communication should be logged?** *e.g. phone calls, texts, emails, in-person meetings, home visits*

**Q35. Should there be a built-in messaging feature between staff, or just a communication log?** *Circle: Log only / In-app messaging / Both*

**Q36. Does communication ever need to be shared with external partners or referral agencies?**

#### 4F Supporting Documents

**Q37. What types of documents are typically uploaded per case?** *e.g. government IDs, proof of income, lease agreements, medical records, school records*

**Q38. Is there a maximum file size or total storage limit per case?**

**Q39. What file formats must be supported?** *e.g. PDF, JPG, PNG, Word, Excel*

**Q40. Can a Case Manager upload a photo directly from their iPhone camera?** *Circle: Yes, required / Yes, nice to have / No*

### SECTION 5 CASE LIFECYCLE & WORKFLOW

*Help us understand how a case moves through your organization from start to finish.*

**Q41. Walk us through the life of a case from first contact to case closure step by step. [REQUIRED]**

For now don't worry about this I just need a place to hold data that can be edited and deleted by managers

**Q42. What status labels does a case go through?** *e.g. Pending, Active, On Hold, Referred Out, Closed, Re-opened*

*Pending, Active, On Hold*

**Q43. Who can change a case status?** *e.g. only the assigned Case Manager, any Case Manager, Supervisor only*

Manager and supervisor

**Q44. Can a case be assigned to more than one Case Manager?** *Circle: Yes / No / Yes, with a primary assigned*

no

**Q45. Can a case be transferred from one Case Manager to another? Who approves the transfer?**

Yes by the supervisor

**Q46. What triggers a case to be closed?**

Supervisor or manager

**Q47. After closure, should closed cases still be searchable and viewable?** *Circle: Yes / No / Read-only after 90 days*

Yes by the manager and supervisor

## SECTION 6 DASHBOARD & REPORTING

*Describe the information each role should see when they first open the app.*

**Q48. What should a Case Manager see on their home dashboard?** *e.g. their caseload, upcoming tasks, recent notes, alerts*

*caseload, upcoming tasks, recent notes, alerts*

**Q49. What should a Supervisor see on their home dashboard?** *e.g. team caseloads, pending approvals, flags, staff activity*

Cases that need assigning cases that have had notes added to them by a case manager

**Q50. What should a Manager see on their home dashboard?** *e.g. org-wide stats, all teams, compliance status, open cases by category*

Im not sure try something and ill come back to it

**Q51. Which reports does ECC need to generate?**

- |                                                        |                                                           |
|--------------------------------------------------------|-----------------------------------------------------------|
| <input type="checkbox"/> Monthly caseload summary      | <input type="checkbox"/> Services delivered by type       |
| <input type="checkbox"/> Case closure / outcome report | <input type="checkbox"/> Staff activity / hours           |
| <input type="checkbox"/> Demographics report           | <input type="checkbox"/> Grant / funder compliance report |
| <input type="checkbox"/> Case status distribution      | <input type="checkbox"/> Custom date-range report         |

**Q52. What format should reports export in?** *Circle: PDF / Excel / CSV / All three / In-app only, no export*

No export

**Q53. Does ECC currently report to any funders or government agencies? What data do they require?**

## SECTION 7 NOTIFICATIONS & ALERTS

**Q54. Which events should trigger a push notification?**

- |                                                           |                                                          |
|-----------------------------------------------------------|----------------------------------------------------------|
| <input type="checkbox"/> New case assigned to me          | <input type="checkbox"/> Case note requires my review    |
| <input type="checkbox"/> Consent form expiring soon       | <input type="checkbox"/> Case status changed             |
| <input type="checkbox"/> New document uploaded to my case | <input type="checkbox"/> Missed follow-up / overdue task |

☐ New message from supervisor

☐ System maintenance alert

**Q55. Should staff be able to turn off certain notifications?** *Circle: Yes, fully customizable / Partial control / No, all notifications are mandatory*

Partial control

**Q56. Should there be automated reminders for upcoming case review dates or appointments?**

no

## SECTION 8 OFFLINE ACCESS & DEVICE REQUIREMENTS

**Q57. Do Case Managers ever work in locations with no internet (e.g. home visits in low-connectivity areas)?** *Circle: Yes, frequently / Sometimes / Rarely / Never*

no

**Q58. If offline access is needed, which sections must be available offline?** *e.g. view cases, add notes, log communication (sync when back online)*

nothing

**Q59. Will all users use iPhones or also iPads or Android?** *Circle: iPhone only / iPhone + iPad / All iOS + Android*

Ios and android

**Q60. What is the oldest iOS version ECC's phones run?** *Check: Settings > General > About > iOS Version*

All relatively new

**Q61. Will ECC provide company phones to staff, or will they use personal devices?** *Circle: Company phones / Personal devices (BYOD) / Mix of both*

Personal phones

## SECTION 9 INTEGRATIONS & EXISTING SYSTEMS

**Q62. Does ECC currently use any of the following systems?**

- |                                                         |                                                         |
|---------------------------------------------------------|---------------------------------------------------------|
| <input type="checkbox"/> Google Workspace (Drive, Docs) | <input type="checkbox"/> Microsoft 365 / SharePoint     |
| <input type="checkbox"/> Salesforce / Salesforce NPSP   | <input type="checkbox"/> Apricot / Bonterra             |
| <input type="checkbox"/> Efforts to Outcomes (ETO)      | <input type="checkbox"/> ClientTrack                    |
| <input type="checkbox"/> Charity Tracker                | <input type="checkbox"/> QuickBooks / accounting system |

**Q63. List any other software ECC currently uses that the app may need to connect to.**

Nothing that is important

**Q64. Is there existing client data that needs to be migrated into the new app at launch?** *Circle: Yes / No / Unsure*

Yes but its not fully necessary to automate that

**Q65. If yes, what format is that existing data in?** *e.g. Excel spreadsheets, Google Sheets, paper records, another app*

Im not sure

## SECTION 10 TRAINING, LAUNCH & ONGOING SUPPORT

**Q66. Who will be responsible for onboarding new staff onto the app?** *e.g. IT person, office manager, whoever is the Manager role*

**Q67. What training materials does ECC need at launch?** *e.g. user manual, video walkthrough, FAQ document, in-person training session*

**Q68. How should staff report bugs or request features after launch?** *e.g. email the developer, in-app feedback button, monthly check-in call*

Add a report a bug tab that will send an email that I can hard code in

**Q69.** Does ECC have a target launch date or a grant deadline tied to the app?

no

**Q70.** What is the budget range for this project? *(Optional but helpful for scoping)*

**Q71.** Who is the primary point of contact at ECC for all project decisions? *Name, title, email, phone*

**Q72.** Who else on the ECC team should be involved in reviewing the app before launch?

## SECTION 11 ANYTHING ELSE

**Q73.** Is there anything about how ECC operates that the developer needs to know that has not been covered above?

**Q74.** Are there any features from apps you have seen (at other non-profits, in other industries) that you would love to include?

**Q75. What is the single most important problem this app must solve for ECC?**

---

---

---

---

**Thank you for completing this document.**

Return it to your developer so we can begin building something great for ECC and the communities you serve.
